

Marching Band and Colorguard Fees:

Part of being in any great organization requires a financial commitment. Mansfield ISD pays for the following items: Marching Band Uniform, electronics for the marching show, music arrangers and arrangements, expensive school-owned instruments, transportation, most marching band and concert band entry fees, Colorguard Director, and some sectional/masterclass instructors. For everything else, the Timberview Band Parents organization and your band fees pay for. Due to Texas Legislature withholding funds from schools due to the Governor's school voucher initiative, these district funds will most likely be impacted for the upcoming year – which means more of a financial burden on boosters and families. Compared to many other band programs across the state and country, our fees are still some of the lowest around.

It is our philosophy that every student who wants to be in band should have the opportunity to do so, **regardless of their family's personal financial situation**. The first step to help can be accomplished at band registration. There, you may opt to set up a payment plan to stagger registration fees over the course of the first semester. If these expenses are still a problem regardless of a payment plan, please call us at **682-314-1518**, or email treasurer@timberviewband.com and ericmullins@misdmail.net and we will try to help. **We want every student to have a chance to participate.**
