

Timberview High School Band

Leadership Team 2025-26

All members of the Timberview band are called on to lead in a positive way towards achievement and excellence. The process for attaining a position of student leadership begins the day a student walks in the door at THS and culminates in a rigorous instructional and try-out period in the spring. The following are the students that have proven, through this process and throughout their membership in the Timberview Band, that they deserve the title of Student Leader. Students are listed by section in no particular order unless indicated.
